

 **iStory**

Your task: Write a fictional short story that includes vocabulary and historical events from a given unit. This story can be set in any time period and be about anything (if you want to write about time traveling vampire-robot-ninja-pirates, go for it!) but must be a complete story with setting, characters and conflict.

Your HiStory must include:

- At least 5 paragraphs including a beginning, middle and end.
 - At least 10 key terms or ideas from the historical unit (a list *may* be provided)
 - References to these terms that help your read understand what they are and what they mean. (Naming one of your characters “Constantine” does not count as using the key term!)
 - All the key elements of a story (characters, setting, conflict, description)
 - A general storyline that makes sense (fantasy is fine but the story itself should have a solid plot)
 - A rough draft
 - A final draft done in ink with proper spelling, grammar and punctuation.
-
